Central Washington Family Medicine Residency & CHC
Maria A. Verduzco
MD, Site Director
My Journey on how I had the opportunity to care for these pts
CWFM Residency

- 30 residents
- 25th class to graduate June 2018
- Full Spectrum
- 12 Physician Faculty
- 5 BHC Faculty
CHC

- Medicaid 60%
- Medicare 16%
- Sliding fee scale 7% (uninsured)
- Number of pts: Serve 16,000 patients
  - 10,688 last year
- My panel is approx 70% Latino, half of which are monolingual Spanish
- Many pts work in agriculture where they work long hours
- Most Common Dx: DM2, Hypertension, Hyperlipidemia, Anxiety, Depression, Atrial Fibrillation, CAD
- On site: BHC, Pharmacy, Care Coordination, SW, Radiology
Centerring Pilot
CWFM NHSC recipients

- May 2012-Aug 2017
- 16 providers: 5/16 NHSC recipients
- 5 BHC providers: 3/5 NHSC recipients
NHSC Recipient Quotes

- Allowed me to continue to live and work in a community where I feel valued caring for underserved patients and the community as a whole.—Dr. Katina Rue, DO

- Allowed me to remain at a CHC teaching residents without having to worry about paying off medical student loans.—Dr. Judy Harvey, MD

- It has meant everything to me...allowed us to live out my mission of serving the underserved while reducing the crushing burden of student loan debt. – Dr. Bridget Beachy, PsychD.
Recruitment: In rural areas like Yakima County, NHSC is main selling point for recruitment.

**W/o NHSC**
- Decrease amount of faculty in the long term
- Decrease Access
- Less Ed to Residents
- Increase ER visits
- Poor Health Outcomes
- Increase Costs
- Increase Disparity of vulnerable pts
- Increase Referrals
- Increase Costs
- Higher Turnover
- Decrease Access
- Increase Burnout
Current System is working!
THANK YOU
